Along with two days of round-table discussions with experts at ARDD and outside specialists, the conference featured keynote speeches from Prince Hasan Bin Talal and ARDD Chairman Dr. Zaid Eyadat.

*"This ruthless game of chess that is taking place between one national flag and another, the whole Sykes-Picot inheritance... is reducing our ability to think and to act." - Prince Hassan Bin Talal*

ARDD intends to organize a minimum of six round table discussions. Topics for consideration include the “Deal of the Century” presently being spearheaded by the United States, the question of Jerusalem, the status of Palestinian citizens of Israel, and the long-term sustainability of services to Palestinian refugees. Through these initiatives we intend to identify of key propositions for more sound policy.
